Domestic and commercial services, 15,526; 153 industrial services; 419 irrigation services, 22 combination services, 45 fire sprinkler services and 882 hydrants.

Several specific factors are involved in the rate increase, the water spokesman announced. "The newly formed replenishment district covers a tax of \$3.19 per acre foot, and the cost of metropolitan water has risen, as well as labor costs."

A breakdown of proposed price increases reveal the following will be sought: 184 per cent increase from irrigation services, 36 per cent increase from industrial sales, and 124 per cent increase from fire protection and miscellaneous sales.

To the average homeowner using an ordinary three-quarter inch domestic service, the minimum charge from the present \$1.75 monthly rate will jump to a proposed \$2.50 per month.

Water is obtained from 16 wells located in the West Coast and Central basins by the firm, as well as purchased from the Metropolitan Water District.

In the application filed with the Public Utilities Commission, the company stated total operating revenue for the past year amounted to \$1,223,340, but income before federal income tax deductions came to \$7,295.

or a lodge band, there's nothing better," Marcus claims.

A graduate of the University of Illinois School of Music, Marcus has lived a double life—teaching youngsters and playing in professional orchestras. He has made music with the New York Philharmonic, with Igor Stravinsky conducting, recorded albums with Howard Barlow and the CBS orchestra, and played in motion pictures.

In addition to his present school-teaching duties, he also plays first bassoon in the Beach Cities Symphony, with Lou Palange conducting.

As an example of practicing his art, Torrance's own Pied Piper, Marcus, has five youngsters, ranging from 14 years to 10 months. They all play. "The youngest beats a mean spoon on a way-out plate," he says.
